RESPONSE

The Official Action dated September 12, 2002 has been received and its content noted. According to the Examiner's remarks, the reply filed on July 23, 2002 is not fully responsive to the prior Official Action because "the reply fails to include a corrected, substitute declaration properly identifying the specification by application number and identifying the post office address of each inventor." After the mailing date of the September 12 Official Action, Applicants were informed by Supervisory Patent Examiner Olszewski, that the current declaration was indeed sufficient for the purpose of identifying the specification. Mr. Olszewski further stated that if Applicants' representative provided a statement acknowledging that each inventor's residence is identical to their post office address, then the declaration in its current form would be deemed sufficient, and that a newly-executed declaration would not be necessary.

Since each inventor's residence is indeed identical to their post office address, it is respectfully submitted that all requirements for the declaration have been satisfied. However, if the Examiner deems that any issue remains after considering this response, he is invited to call the undersigned prior to taking any adverse action to expedite the prosecution and work out any such issue by telephone.

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,
